SoftStartRV.com/support
2. Visit our Frequently Asked Questions at:
SoftStartRV.com/faq

DURING OR AFTER INSTALLING:

3. Visit our Troubleshooting page at:
SoftStartRV.com/troubleshooting
4. Open a Support Ticket and request FREE support help at: **SoftStartRV.com/support-ticket**

INSTALLATION INFORMATION

Installation should take less than 1 hour per A/C unit. If you do not see your wiring diagram on our support pages, send us a picture - using our ticket support system - of your A/C diagram which is usually found under the rooftop A/C cover, and we will customize it for you absolutely free.

There are no user serviceable parts inside the SoftStartRV unit. The circuitry inside the unit is sealed in resin during manufacture to ensure a long life, and to protect the components from vibration, heat and cold.

STANDARD WARRANTY

In the unlikely event a unit is faulty, we will replace it up to one year from your purchase date under our Unconditional Warranty.

FREE EXTENDED WARRANTY

To extend your warranty to **THREE YEARS**, TOTALLY FREE, here's what to do:

1. Install the SoftStart RV unit. Use it and enjoy the uninterrupted cooling comfort, then visit:

SoftStartRV.com/extended-warranty-application

2. Fill in the form and add a nice review/testimonial that we may use on our website. If we use your review, we will not use your full name to protect your privacy. We will extend your Warranty to 3 years.
